How's Your Style? Tips of the Month

Mainstream Call of the Month

CAST OFF THREE QUARTERS:

Starting formation - any wave or line. Each half of the line or wave works as a unit and moves forward around a pivot point three quarters (270°). If the adjoining dancers are facing the same direction, the end dancer becomes the pivot while the other dancer moves in a semi-circle around the pivot. If the adjoining dancers are facing in opposite directions, the pivot point is the handhold between them and they move equally around that pivot point.

Want to improve your dancing skills?

Try going to some weekend dance retreats!
